2. Cut with long stems, generally just before they come into full bloom. Some flowers such as the following are exceptions: Gladiolus, when its first bud opens; roses, when buds are soft; dahlias, when blooms are fully open; poppies, the night before opening.
3. For best results, flowers should be placed in warm water up to the flowers' heads immediately after cutting, then stored for several hours in a draft less, cool place.
4. Groom entries carefully. Remove

leaves that will be under water in the exhibit.

### **Accepting Tuesday, August 4, 7:00 a.m. to 12:00 p.m.**

Horticulture Rules:

- \* Entries must be grown in Sevier County by the exhibitor.
- \*More than 3 entries per exhibitor are encouraged and may be

accepted at the discretion of the department head. However, a maximum of 3 entries per exhibitor will receive premium payment.

\*All varieties of fruits and vegetables should be named or identified on entry form.

\* Entries that are highly favored by judges must meet high "Fair Quality" standards of excellence. They will be judged based on the following criteria: appropriate size, shape, color, uniformity, maturity, blemishes, cleanliness, overall condition, and variety correctly listed on the entry form. Maximum size is not desirable for some lots such as summer squash. Each item in the exhibit entry should be as uniform as possible in size, color, maturity, and characteristic shape. Judges will not look favorably on entries that are overly mature, blemished, or bruised.
